1930

Estate of N. P. M. Jacobs \$123 94

I wish to call your attention to this account once again. The executrix, Mrs. Lizzie Jacobs, is ready and willing to pay this account but due to an injunction issued by the Court payment is temporarily held up. The account has been filed with the Commissioners of Insolvency and the same was duly allowed. According to information received from Mr. Hanscom, attorney for the estate, payment will be made as soon as the court will authorize payment or the injunction is lifted.

AUDITOR'S REPORT

Having examined the books of Walter E. Hatch, Collector of Taxes, I find the same correct with proper vouchers, for moneys turned over to the Treasurer and the balance due on 1930 commitment \$123.94, balance due on 1934 commitment to be \$48.81, balance due on 1935 commitment \$280.20, and balance due on 1936 commitment \$1,995.18.

Respectfully,

RUTH B. WALL,
Auditor of Wells, Maine

February 15, 1937.

N. B. I am carrying an unusual amount of taxes on my books the present year with the anticipation of placing liens on the property in favor of the town unless the taxes are paid within the time limit allowed in such cases.

A matter concerning Missing birth records should here be noted.

On April 7th, 1911, the Town Hall of Wells was destroyed by fire. At the fire Birth Records of the years 1860-1892, inc., were lost in the fire. After the fire several heads of families went to the Town Clerk, furnished the required information necessary to replace on record the births of their children, but, many birth records are still missing.

The procedure to again place on record those births still missing is as follows:

Obtain from the Town Clerk Form A.A. Legal Deposition in use by the Department of Health and Welfare, give the required information called for on the deposition and then have it witnessed by relatives (older than the child) or others qualified to verify the authenticity of the date given on the deposition under oath to the Town Clerk, a Justice of the Peace or Notary Public to the truth of the same. On receiving this deposition completed as above mentioned, the Clerk after recording the instrument can then issue a birth certificate to the applicant.

The foregoing has the approval of the Department of Health and Welfare.

Respectfully submitted,

JUSTIN S. HUSE,
Town Clerk.

REPORT OF THE

Superintendent of Schools

Wells, Maine, February 1, 1937

To the Superintending School Committee of Wells, Maine:

I herewith submit to you my report of the schools of Wells.

The school census of April 1, 1936 showed there were 394 boys and 377 girls, a total of 771 persons between the ages of five and twenty-one years of age in the town on that date. There were 554 enrolled in the schools this Fall as the following table shows:

The following teachers have been elected for new positions this year.

Division	1—Miss Helen Foster.
	4—Miss Martha Hawkes.
	5—Miss Mary Otis.
	5—Miss Eleanor Martin.
	6—Miss Blanche Hutchins.
	7—Mrs. Esselyn Perkins.
	9—Miss Mabel Harmon.
	10—Miss Gwendolen Elwell.
	14—Mrs. Roselyn Garland.
	16—Mr. Richard Dustin.

High School—Mr. Melvin Preble.

In general the new teachers have adjusted themselves to the requirements of a different position and are carrying on their work in a very satisfactory manner.

By Town Meeting time we hope to maintain school in the new building. The town has needed this new school structure for several years, and the beautiful building provided by the citizens of Wells should be much appreciated. The building committee, and especially the chairman, have given freely of their time and energy in overseeing its construction and deciding on the most desirable furnishings for it. Thanks are due them from the citizens.

The changes necessary to make the old high school building suitable for use by the grades will require considerable expenditure from the repair account. It was expected that work would be completed earlier with money

raised last year. The unexpended balance in that account will, we think, take care of these expenses in addition to the regular demands for repairs for the ensuing year.

May I express my appreciation to the Superintending School Committee and to the teachers for their support and assistance, and to all friends of the schools for their help during the past year.

Respectfully submitted,

JOHN S. CARVER.

Wells, Maine, February 1937

Gentlemen:

I have examined the foregoing accounts of John S. Carver, Superintendent of Schools, and have found the same correct with proper vouchers, and balance carried forward according to previous records.

RUTH B. WALL,
Auditor, Town of Wells.

WELLS HIGH SCHOOL REPORT—1936-1937

Supt. John S. Carver:

There were one hundred forty-nine pupils enrolled at Wells High School during the Fall term. Seventy-one were boys and seventy-eight were girls. They were divided into classes as follows: Post Graduates, 2; Seniors, 23; Juniors, 48; Sophomores, 38; Freshmen, 38.

For the third year it has been necessary to continue the two session program until the new building is available. The three upper classes attend from eight to twelve-thirty, and the freshmen class from twelve-forty to four-forty.

The Classical, Scientific, Domestic Arts, and General courses are offered this year. Dramatics, prize-speaking, editorial work, and athletics comprise the extra-curricula activities.

All of the teachers have been handicapped by large classes and lack of space, but they have served faithfully under these adverse conditions.

The Seniors have presented the annual play under the direction of Miss Hamilton. Mrs. Emery is working with the school chorus on an operetta to be presented in the near future. Plans are now under way for the annual Prize Speaking Contest to be held in April.

The School Paper is being published five times a semester, and the new equipment purchased last year by the present Senior class is nearly paid for.

The athletic teams have made a good record and the attendance has exceeded that of previous years.

All the recent graduates who are attending higher institutions of learning are making excellent records and report that they feel they have been adequately prepared for a college course. Last year the Senior class stood in the top twenty percent of the senior classes throughout the State in a comprehensive examination in English.

During my six years as Principal, I have striven to keep Wells High among the progressive and successful secondary schools of the State; and I feel that the expected high standards have been maintained.

I wish to thank all the citizens, school authorities, teachers, and friends who have cooperated with me and aided me in my work; and I shall greatly appreciate the same support of my work in the future.

AURA W COLEMAN.

DOMESTIC ARTS

Superintendent—John S. Carver:

Home Economics owes its spreading popularity to the fact that a rapidly increasing number of people are learning about the kind of work included in such a course, and they appreciate the help Home Economics gives to girls in solving common everyday problems in work and in recreation.

In Wells a two year course is offered. The first year course in Home Economics is open to Freshmen only, since the course is given in the afternoon. The course in Home Economics which is offered for upper classmen may be selected by any of the Sophomores, Junior or Senior girls whether or not they have taken the first year of Home Economics.

The Freshman Course consists of three units—28 weeks of Clothing, 4 weeks of Child Care, and 4 weeks of First Aid and Home Nursing.

The Clothing Unit includes a study of altering and fitting paper patterns, the construction of clothing, and the care of clothing. The girls become familiar with common materials by discussing the differences in fiber weave, finish, and design. Tests for determining the quality of

materials are considered,—such as how to tell whether material will shrink in water, fade in the sun, pull apart under strain, lose its gloss when washed, etc. Desirable designs and colors in clothing are discussed in relation to the age, size, personality, and coloring of the individual girls.

The Child Care Unit stresses the importance of heredity and environment. The prenatal and postnatal care of the mother is considered in relation to the mother's health and the baby's health. The care of the child from birth to six years of age is considered. The baby's food, bathing, habit formation, play, and rest are taken up separately with attention to the relative importance of each to the child's future health and happiness.

The following unit is divided into two parts—First Aid and Home Nursing. First Aid includes a study of the human anatomy in relation to injuries that may occur. The cause, symptoms and treatment of various injuries requiring immediate treatment are discussed. Instruction is given in cases of shock, burns, drowning, poisoning, bleeding, bruises, strains, sprains, dislocations, and fractures. Home Nursing takes into consideration the requirements of a sick room, as well as the necessary physical and mental requirements of the nurse. The physical and mental condition of the patient is discussed. The care of the patient, and some of the nursing methods are considered.

The Second Year Course consists of four units—11 weeks of Social, Family, and Personal Relationships, 9 weeks of Handicraft, 6 weeks of Home Management, and 10 weeks of Nutrition.

The Family, Social, and Personal Relationship Unit is planned for the purpose of helping the student realize what she should require of other people and what she in turn must do in order to be an acceptable member of society. Character traits are studied to discover which are the most valuable ones. These are discussed in relation to the family and in relation to friends. The value of co-operation inside and outside the home is discussed. Class

discussions of how to cope with home and social problems are included in this unit.

The Handicraft Unit is offered for the purpose of teaching the girls what they can do in their leisure time at home. Each girl chooses her nine weeks' work in the different handicraft activities from the following list: 4 weeks of Knitting, 3 weeks Embroidery, 2 weeks Crocheting, 1 week Wood Fiber Flowers, 1 week Needlepoint, 1 week Silhouettes, 1 week Designing and Painting, 1 week Leathercraft, 3 weeks Sewing, 2 weeks Mending, 2 weeks Weave-it.

The Home Management Unit is divided into two parts. Part I consists of a discussion of the care and management of the home in its various phases. Part II consists of a discussion of budgets, practice in making out personal budgets and keeping accounts. Practical application of this is made when each student makes out her own budget and keeps a record of her expenses for a three months' period.

The Nutrition Unit takes up the problem of nutrition from the standpoint of its necessity for health and happiness. An explanation of the foods that are necessary for health is given. The value of minerals and vitamins is considered, and the effect on the body of an oversupply and undersupply of calories is discussed. Balanced menus are planned and their mineral and vitamin contents are calculated. Plans for laboratory cooking and cafeteria work in the new High School have not yet been completed.

DOROTHY M. SOMERS.

REPORT OF MUSIC SUPERVISOR

Superintendent John S. Carver:

Dear Sir:—I have the honor to submit herewith my second annual report as Supervisor of Music in the schools of Wells, Maine.

Music is an important factor in the lives of our school children. I may say that the ultimate aim of music teaching in the public schools is to cause children to know, to love and to appreciate music in as many forms as possible, and thus bring added joy into their lives and added culture and refinement into their natures.

No great changes in the general line of study have been attempted this year. Since, I believe, the first, second and third grades are the foundation of the whole system, special attention is given to the fundamentals, and the children are taught to read music in the same careful manner that the rest of the grade work is carried on.

Music appreciation has been presented to a limited degree and has been a source of interesting response, in time it will occupy its place and grow to be of immense value to the students.

National Music Week was observed in several of the schools last Spring in conjunction with Mother's Day, and many fine miscellaneous programs were given, and in most instances the music supplied was from the daily music lesson. Christmas programs, consisting largely of music, were given in nearly all of the schools, and were a source of enjoyment to the parents as well as to the children.

The High School Orchestra and Chorus are both valuable units of the music department. They have given most creditable performances before the Parent-Teacher Association as well as for school activities. Last Spring they most successfully presented the operetta "The Moon Maiden."

The use of the harmonica in school music training is being increasingly recognized as a practical way of utilizing a natural interest of childhood. "Music for every child and every child for music" is made possible through this movement. This has been encouraged wherever a sufficient number of children have harmonicas to make it practical to devote a small portion of the regular music period to this work.

Our thanks is extended to the Masonic lodge for presenting an organ to the school at Division Nine, also to an Ogunquit resident for the gift of a set of drums for the orchestra. An organ has been purchased by the Town and installed at Division One. Through the efforts of Miss Martha Hawkes and her pupils a piano has been purchased for the school at Division Four. All of these instruments are very useful in our musical activities as well as bringing enjoyment.

May I at this time express my appreciation for the generous support and kindly help of yourself, the school committee, teachers, and parents, all of whom have contributed towards making my year in Wells a happy one. It is my earnest desire that I may help the boys and girls with whom I come in contact to make of the lumber of their life, not a tavern but a temple, and of the words of their every day life not a reproach but a song.

Respectfully submitted,

INA N. Emery.

REPORT OF THE Public Health Nurse

To the Selectmen and School Committee of the Town of Wells:

The following report will cover the activities of the Public Health Nurse from June 15, 1936 to February 1, 1937.

A total of 627 patients have had attention as follows:

Infants under 1 year	16
Preschool children	19
School children (includes School Inspection) -	534
Pre-Natal	2
Post-Partum	3
Adults	47
Tuberculosis	1
Social Service	5
	<hr/>
	627

The type of service rendered has been as follows:

Nursing or bedside visits	169
Instructive visits	210
Investigation visits	48
Miscellaneous visits	376
	<hr/>
Visits	803

The school pupils have had their annual inspection, and of the 534 inspected there are the findings:

High School			
Defective Vision	43	Corrections	4
Defective Tonsils	15	Corrections	1

Ogunquit

Defective vision	23	Corrections	22
Defective throats	21	Corrections	1

Grade Schools

Defective vision	58	Corrections	8
Defective tonsils	55	Corrections	3

Underweight 10% to 20%—31

Underweight 20% to 30%—4

Underweight 30%—1

Overweights 20% or more—19

There have been 24 Dental Certificates brought in, and the High School pupils report that 19 have had all dental work cared for. Many others have had part-corrections, but the work is not yet completed. The excellent condition of some of the teeth shows that much time and thought have been given to their care.

COMMUNICABLE DISEASES**Cases Reported**

Chicken Pox	School children, 45	Pre-school children, 10
Whooping Cough	School children, 66	Pre-school children, 36
Scarlet Fever	School children, 1	
Pediculosis	School children, 27	
Scabies	School children, 6	

This year special attention will be paid to eye corrections, and to conditions which appear to be effecting the progress of the student. Already many have been contacted and arrangements are in progress for next summer's program. Plans are being made for special nutrition assistance for the underweights. Extra milk is being supplied in many cases, and cod liver oil has been ordered, and will be given out.

In checking over records for the Seven Point Child Activity, (awards for those children gaining corrections) it was found that many births were not recorded, or the school records showed a different date from the birth record, also that some 50 children had not yet brought their birth certificates to school.

Arrangements have been made with the Maine Public Health Association for the use of their Audiometer, an ear testing device, during the month of March; and we are nearly ready to start further Diphtheria Immunization and Schick testing of those children that received the immunization two years ago.

Transportation has been provided for patients to Portland to Maine General Hospital, Eye and Ear Infirmary, India Street Clinic, Childrens Hospital, and to Kennebunk, and Sanford to the dentists. Two underprivileged children were examined and placed in school where they are doing very well.

Public Health meetings have been held once every month, where reports and plans have been discussed. Clinics have been attended and a Well-Baby Conference has been started. This has been held at the Second Congregational Church Vestry, and more conferences will be held each month for a time. Dr. Chase is giving his time to assist with this.

People are realizing that a nurse is available, and are calling on more and more for information and assistance. Starting a service is not easy, there are always misunderstandings, difficulties and misinterpretations, and changes are difficult for the children.

In appreciation for their assistance, I wish to thank all those who have helped in the Health Work—the Selectmen, the Superintendent of Schools, the School Committee, the Parent-Teacher Association, the Teachers, Red Cross Committee, the American Legion, and the members of the Wells Health Association, the Maine Public Health Association, and all others who have cooperated to make the health program a success.

Respectfully submitted,

GRACE E. MESERVE, R. N.,
Public Health Nurse.
